MEMORANDUM FOR: CHAIRMAN, SUBCOMMITTEE ON EXPLOITATION OF  
FOREIGN LANGUAGE PUBLICATIONS

SUBJECT: COMMENTS ON EXPLOITATION PROGRAM

1. The present program of reporting by FDD, as outlined in the Memorandum for: Members of the Subcommittee on Exploitation of Foreign Language Publications, is considered satisfactory with the following exceptions:

a. There is no requirement listed for the USSR on subversion, dissidence, and similar topics.

b. Albania, Bulgaria, and Rumania do not have a requirement on the organization of and cases involving internal security forces.

c. Under Communist Korea, there should be a topic entitled: "Military and Security Forces -- all available data."

2. With several exceptions, the requirements in Appendix A cover material which is desirable and useful, although not essential. It is doubtful, however, that much of the information covered by Appendix A would become available from other sources; if it did become available, it might well be after a considerable lapse of time. This would of course result in the use and exploitation of much more expensive sources of the needed information. In general, the present FDD program is adequate to meet most current requirements, but it does not have the breadth and depth to meet basic intelligence requirements.

Army plans to expand its exploitation of publications in the immediate future, and in this connection, it is anticipated that at least some of the requirements listed in Appendix A will be covered, at least in so far as Department of the Army interests are concerned.

3. The following items in Appendix A are considered to be of particular interest to Army, either in whole or in part:

- a. Page 1, items 4 - 8.
- b. Page 2, items 4 - 6.
- c. Page 3, items 5, 9 and 10.
- d. Page 4, items 1 - 3.
- e. Page 5, item 1.
